MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, Concerning the Intelligence Evaluation Committee.

25X1A 1. At the conclusion of the IC briefing, Chairman Nedzi, of the Intelligence Subcommittee of House Armed Services Committee, talked briefly to [] and the undersigned about the President's statement concerning the Intelligence Evaluation Committee. 25X1A Neither [] nor I were able to give Nedzi any detail on the Committee.

25X1A 2. After returning to his office, Chairman Nedzi called me and said he had reread the portion of the President's statement concerning the IEC and was confused since it does not appear to fit into the picture either as related by General Allen in his quick overview of the community or his general understanding of the community structure. After checking with [] I called Nedzi and told him that the IEC was a Committee formerly headed by Assistant Attorney General Mardian which operates primarily within Justice and that it is still in operation. Chairman Nedzi asked if I would find out for him who the present Agency representative is, the present chairman, and the origins of the Committee, Executive Order, or whatever. He said he would like a fillin on this information as soon as possible.
